## PROFESSIONAL SUMMARY

---

I'm a passionate, detail-oriented and product-minded Software Engineer adapted at contributing to highly collaborative work environment, finding solutions and determining customer satisfaction. I have 5+ years of experience in working on scalable architectures, distributed computing, big data analysis, micro services and cloud infrastructures for organizations ranging from start ups to global enterprise. I'm a Developer Advocate who's always willing to help and assist anyone venturing into the tech world. I'm willing to work with a company that require my skills to grow with the company and move forward.
